

Customer Accounts

Take payments for goods and services on account

Customer Accounts is a fully integrated, real time sales ledger for goods and services charged to account:

- Gain real time control and flexibility for your business
- Improve cash flow - take payments from customers at the till any day of week
- Save time – remove the reconciliation between the invoice and sales ledger

Live credit control at the Point of Sale

Quickly bring up a customer's account and print a statement.

Receive payments at the Point of Sale

Take payments anytime – even at the weekends when the accounts staff are not working and allocate them in the week.

Easily Manage Accounts Administration

Run statements for all customer accounts and see a full aged debt report. Deal with write offs and quickly allocate payments to account.

Transfer to Credit Sales

Tab and branch sales can be transferred to credit sales on a batch basis at period end, allowing a single grouped invoice to be produced.

See a Full List of Tab Sales

Tab sales list shows all items on the tabs, with customer order numbers.

Head Office Management

Multi-branch head office users can have customer accounts at the head office, running a centralised sales ledger.

Save Time at Month End

Run batch statements at the end of the month.
