Save Time

With seamless links posting financial information direct from Kudos to Sage, there's no duplication of effort or the need to re-input Kudos data into Sage. Imagine the time saved by your Accounts Department!

Working in Real Time

You define how often the data is sent between Kudos and Sage - this can be every minute. So at any time, you get a real time view of your financials in Sage. No more waiting to the end of the day or batch updating.

True Flexibility

Whether your accounts are simple or complex, Sage Link delivers the flexibility to post data to selected nominal's – therefore not restricting you to the Sage standard chart of accounts.

Credit Control on Sage

Manage your credit control on Sage. Direct links mean that Customer Account information from Kudos is integrated straight into Sage. So your accounts team can manage account customers and chase payments directly from Sage.

Eliminate Errors

Because Kudos links directly to Sage, there's no need to re-input any data or information. So potential errors are eliminated, saving your accounts team time and effort.

Available for all Kudos Products

Sage Link works across all Kudos packages. So whether you are using Workshop, Mail Order, Retail or Unit Trader, you can add Sage Link for real time integration.
